

Monthly Progress Report
for
January 2002
NAS-99055
Thomas F. Lang, PhD, Principal Investigator

1. Overall progress

No scanning was performed this month. At this point, 14 subjects are enrolled in the program 11 have received baseline measurements. Five subjects have completed the pre-flight and return CT scans. The accomplishments of the study up to this point are described in the Operational Accomplishments Report submitted to Dr Lakshmi Putcha for the Increment 3 flight.

2. Problems

There are no current problems with the spaceflight component of the project, which is working very smoothly. The data are of excellent quality, the subjects are enrolling and are being scheduled without difficulty.

3. Next Monthly Reporting Period

We will prepare the operational accomplishments report during this time period.

REPORT DOCUMENTATION PAGE			Form Approved OMB No. 0704-0188	
Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.
